As a school, we have continued to implement our School Plan with our three Strategic Directions: Quality Leadership, Quality Teaching and Learning to develop 21st Century Learners and Beyond the Classroom.

Quality Leadership programs have included the establishment of the Aboriginal and Torres Islander Culture Classes each Tuesday; the ongoing development of the Positive Behaviour for Learning; and all teachers developing and implementing an individual Professional Development Plan as part of teacher quality training.

Quality Teaching and Learning to develop 21st Century Learners programs have included teachers training and using new curriculum with Maths and Science in particular; commencing training with tablet technology and the new 3D printer; and assessing children and using this information to improve learning.

Beyond the Classroom programs have included: the development of asthma plans, attendance monitoring and celebrated; programs to promote a life long love of learning such as the school band, excursions, special guests, carnivals etc. We continue to review and assess these initiatives.
